Education

Cybersecurity, Computer Engineering, and Computer Science:

Dakota State University — *Conferred* May 2026
Beacom College of Computer and Cyber Sciences
PhD Cyber Operations
Defense Passed March 25, 2026
GPA: 4.0/4.0
Dissertation Title: Hybrid Neural Network Model Defenses Against White-box, Targeted, and Compound Adversarial Attacks. Dissertation Supervisor: Varghese Vaidyan, PhD.

Syracuse University — 2020
College of Engineering and Computer Science
MS Computer Engineering

California State University - Chico — 2004
College of Engineering, Computer Science, and Technology
MS Computer Science

University of the Pacific — 1990
School of Engineering
BS Computer Engineering

Business Administration and Finance:

University of Phoenix — 2008
School of Advanced Studies
Doctor of Business Administration
Dissertation Title: The Extent To Which A Board Of Director's Celebrity Status Affects the Shareholder Wealth Maximization. Dissertation Supervisor: Santosh Sambara, PhD.

Seattle University — 2002
Albers School of Business and Economics
MS Finance

	University of San Diego Knauss School of Business MBA	1997

Prof. Academic Appointments

ABET Program Evaluator: Computer Science, Cybersecurity, and Computer Engineering	2022 – 2025
Security Clearance: TOP SECRET/SCI, Dept. of Homeland Security	Inactive
Lecturer, California Polytechnic State University, College of Engineering	2024 – Present
Adjunct Assistant Professor, Dominican University of California, Barowsky School of Business	2024 – 2026
Affiliate Instructor, University of Washington, College of Built Environments	2018 – 2021
Part Time Professor, American Public University System, School of STEM	2013 – 2018
Adjunct Professor, University of Fairfax, Graduate School	2010 – 2015
Adjunct Professor, City University of Seattle, School of Management	2010 – 2011
Adjunct Professor, EC-Council University, Graduate School	2007 – 2010

Prof. Industry Experience

Security and Technical Program Consultant, Self-employed 2023 – 2024

Provided expert guidance and innovative solutions across diverse industries

Optimized technology infrastructure and streamlined operational processes

Developed targeted strategies to address unique challenges and drive growth

T-Mobile, Sr. Manager, Security and Technical Program Staff 2010 – 2023

Implemented Enterprise tools, increasing operational efficiency by 30%

Led digital security initiatives, achieving 20% risk reduction within 18 months

Managed Security programs across InfoSec and Enterprise domains

Microsoft, Manager, Technical Program Management Staff 1999 – 2010

Led technical teams in deploying technology platforms with 98% on-time completion rate

Oversaw implementation of enterprise applications, including CRM and security tools

Honed skills in data analysis, systems integration, and user operations management

Inventions/Patents

23 issued patents, all assigned to T-Mobile U.S.A.

Including: DeepFake Detection, Augmented Reality Collision, Temporal Identity Vaulting, Privacy Breach Detection, Mobile Device In-Motion Proximity Guidance System, Dynamic Wireless Communications Network with Aerial Drones, Behavioral Biometrics, and more.
