Education

Cybersecurity, Computer Engineering, and Computer Science:

Dakota State University *Expected*
Beacom College of Computer and Cyber Sciences May 2026
PhD Cyber Operations *ABD, GPA: 4.0/4.0*
Dissertation Title: Hybrid Neural Network Model Defenses Against White-box, Targeted, and Compound Adversarial Attacks. Dissertation Supervisor: Varghese Vaidyan, PhD.

Syracuse University 2020
College of Engineering and Computer Science
MS Computer Engineering

California State University - Chico 2004
College of Engineering, Computer Science, and Technology
MS Computer Science

University of the Pacific 1990
School of Engineering
BS Computer Engineering

Business Administration and Finance:

University of Phoenix 2008
School of Advanced Studies
Doctor of Business Administration
Dissertation Title: The Extent To Which A Board Of Director's Celebrity Status Affects the Shareholder Wealth Maximization. Dissertation Supervisor: Santosh Sambara, PhD.

Seattle University 2002
Albers School of Business and Economics
MS Finance

University of San Diego 1997
Knauss School of Business
MBA

Prof. Academic Appointments

ABET Program Evaluator: Computer Science, Cybersecurity, and Computer Engineering	2022 – 2025
Security Clearance: TOP SECRET/SCI, Dept. of Homeland Security	Inactive
Lecturer, California Polytechnic State University, College of Engineering	2024 – Present
Adjunct Assistant Professor, Dominican University of California, Barowsky School of Business	2024 – 2026
Affiliate Instructor, University of Washington, College of Built Environments	2018 – 2021
Part Time Professor, American Public University System, School of STEM	2013 – 2018
Adjunct Professor, University of Fairfax, Graduate School	2010 – 2015
Adjunct Professor, City University of Seattle, School of Management	2010 – 2011
Adjunct Professor, EC-Council University, Graduate School	2007 – 2010

Publications

Preprint Journal Articles

Yocam, E., et al. Quantum Adversarial Machine Learning and Defense Strategies: Challenges and Opportunities. *Doi: 10.48550/arXiv.2412.12373*	2024 (Removed once Book Chapter is Published)

Book Chapter (Pending)

Yocam, E., Rizi, A., Kamepalli, M., Vaidyan, V., Wang, Y., Comert, G. "Quantum Adversarial Machine Learning and Defense Strategies: Challenges and Opportunities." In: *Quantum Robustness in Artificial Intelligence*, Springer Quantum Science and Technology Series, edited by Prof. Muhammad Usman.	(Awaiting Final Publication - Nov. 2025)

Manuscripts in Development

Prasad, A.R., Ketema, N., Kothakonda, B.V., Yocam, E., Vaidyan, V., Comert, G., Podhradsky, A., Werth, D., Buckley, R., "A Novel Hybrid Quantum-Classical Path Optimization for Methane Detection Using Remote Quantum Intensity Prediction Models."	In development
Kappala, A., Yocam, E., Vaidyan, V., Wang, Y., Comert, G. "A Dynamic Quantum-Resistant Selective Encryption Approach for Agricultural Sensors with Limited Resources."	In development

Prof. Industry Experience

Security and Technical Program Consultant, Self-employed — 2023 – 2024

Provided expert guidance and innovative solutions across diverse industries

Optimized technology infrastructure and streamlined operational processes

Developed targeted strategies to address unique challenges and drive growth

T-Mobile, Sr. Manager, Security and Technical Program Staff 2010 – 2023

Implemented Enterprise tools, increasing operational efficiency by 30%

Led digital security initiatives, achieving 20% risk reduction within 18 months

Managed Security programs across InfoSec and Enterprise domains

Microsoft, Manager, Technical Program Management Staff 1999 – 2010

Led technical teams in deploying technology platforms with 98% on-time completion rate

Oversaw implementation of enterprise applications, including CRM and security tools

Honed skills in data analysis, systems integration, and user operations management

Inventions/Patents

23 issued patents, all assigned to T-Mobile U.S.A.

Including: DeepFake Detection, Augmented Reality Collision, Temporal Identity Vaulting, Privacy Breach Detection, Mobile Device In-Motion Proximity Guidance System, Dynamic Wireless Communications Network with Aerial Drones, Behavioral Biometrics, and more.
